

**REMARKS**

In response to the objection to the specification and drawings, the claim feature "non-pixel region" of claim 20 has been canceled from the claim, and replaced with "a region between pixels". As seen in Figs. 4A and 4B, there is a sub-region 02 between the sub-regions 0<sub>1</sub> corresponding to the pixels. Thus, the sub-region 02 corresponds to the "region between pixels". Reference should be made also to page 8, lines 33-page 9, line 8 of the original disclosure. Accordingly, withdrawal of the objection to the drawings and specification is respectfully requested.

Rejected claims 18 and 19 have been canceled without prejudice and claim 20 has been re-written in independent form. These amendments should place this case in condition for allowance.

For the foregoing reasons, Applicants believe that this case is in condition for allowance, which is respectfully requested. The examiner should call applicants' attorney if an interview would expedite prosecution.

Respectfully submitted,
